Dear Listener,

Thank you for your reception report of January 27th, and the nice picture post card showing Monmouth Beach. Many of our listeners send us such cards from time to time and so we have quite a collection which we display on our bulletin board so that all our visitors can enjoy them too. I have already sent you a Radio Prague QSL card by sea mail. It is remarkable that you should get such a clear reception of our domestic transmission. Although, I must say that several of our listeners on the east coast have also written in to say that they too have received these programs quite clearly. In the meantime, have you triedto get our short wave transmissions beamed to North America at 01:00 and 03:00 GMT? Many of our listeners there report that especially on the east coast, reception has been very favorable lately, with only occasional fading.

To help you find us more easily on your dial, I am also sending you the current program schedule of our broadcasts in English. I hope you will tune us in often and send along more reception reports. Besides the usual verification data, we would very much welcome your comments and criticisms on the programs themselves.

If you have any questions about life in Czechoslovakia, send them along too. All queries are acknowledged in writing, and the most interesting and original ones are answered over the air in our daily "Listeners´ Club" session. We are also glad to fill requests to play a particular piece of music. If your question or musical request is scheduledin our broadcast, I will write to let you know the date in time for you to listen in. Incidentally, a listener whose question is answered over the air receives our Czechoslovak souvenir-of-the-month.

In additionto the above mentioned material, I am sending you some literature in English about our country. I trust you will find it interesting. Other material is available, and yours for the asking.

Do let us hear from you again soon and tell us what success you have had in picking up our short wave transmissions beamed to North America. In the meantime, best wishes for good listening!

Sincerely yours,

Martha Trojanová
